Best Practices

Bloyalty4u - BPER

BLOYALTY4U

Aim

Implement a **geolocalized loyalty program**, to strengthen the relationship between the Bank and the Le Vie del Commercio consortium of Lanciano (BPER account holders) and between merchants and their final consumers.

Solution

- Development and installation of the **Bloyalty4u app on the POS** terminals of the interested shops, able to provide cash back (vertical on the consortium) and instant win to every transaction made by the customers.
- Development of the **bloyalty4u.com** portal on which customers, merchants and the Bank can monitor their activities.

Sconti BancoPosta – Poste Italiane

Aim

Increase the number of merchants (of different sectors) affiliated to the **largest cash back program** in Europe and manage their correct reporting and billing.

Solution

Development of an **automatic system** capable of activating new merchants and managing weekly billing related to transactions. An automation system was also implemented for guaranteeing the **automatic on-boarding of merchants** in order to stimulate the continuous growth of the program.

Eataly Card - Eataly

Aim

Stimulate customer loyalty (number of average receipts) and positive cash flow for the company through a **new payment instrument**.

Solution

- This payment mean can be bought and topped up **online and offline** with different payment methods;
- **Cash back credit** (gained with purchases) that can be spent in the Eataly physical or digital circuit;
- **Extension of benefits** to other customer base of interest (e.g. Enel Mia).

Italo Più – Italo Treno

Aim

- **Engage customers** enrolled in the Italo Più program
- **Increase the value of the relationship** with the customers
- Support **up-selling and cross-selling** actions

Solution

Domec supported NTV in the construction of the new **Loyalty platform** dedicated to Italo travelers, designed to encourage loyalty and to offer assistance to customers based on their habits, with offers tailored to the purchasing behavior even on platforms of external partners.

Italo Business Pass – Italo Treno

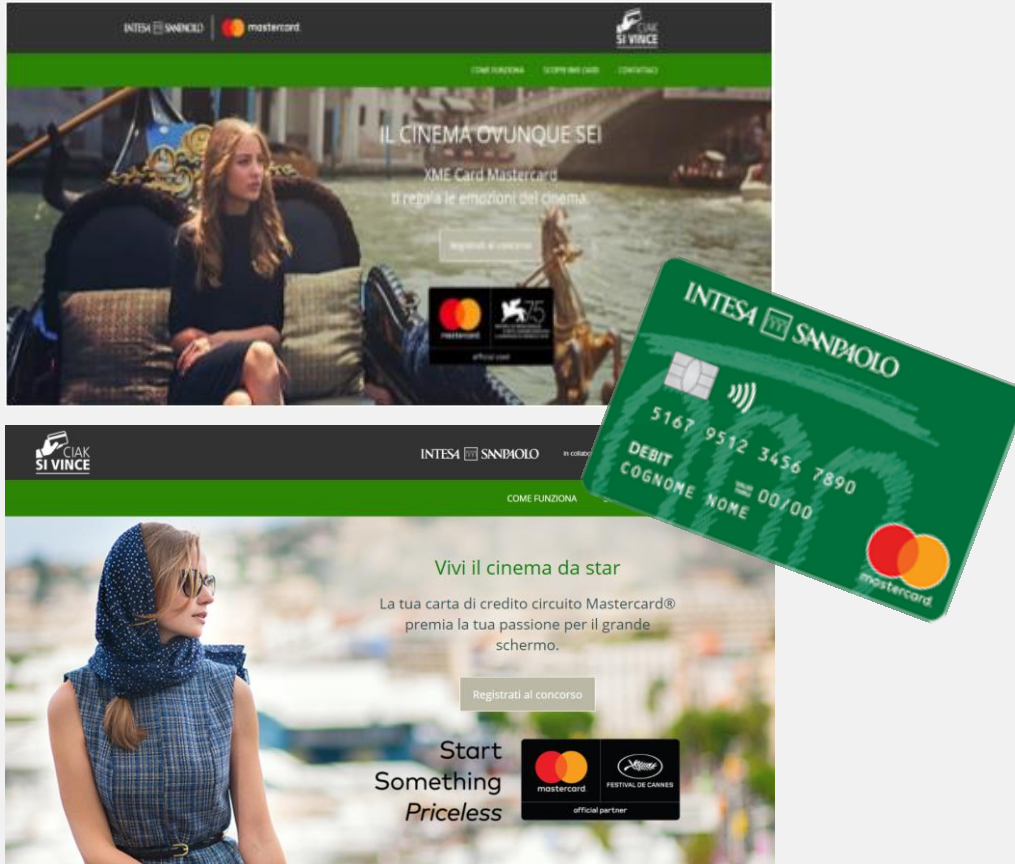

Aim

Launch a new product dedicated to the Business target, with the possibility of **managing end to end** (from the provision to the credit movement up to the recharge), and in complete autonomy, all the phases of the use of the instrument.

Solution

Development of a new prepaid **privative payment mean** that allows companies or VAT holders to purchase travel for their employees in a flexible way (and at discounted prices).

Ciak si Vince – Intesa Sanpaolo

Aim

Ciak Si Vince is a sweepstake competition proposed by Intesa Sanpaolo in collaboration with Mastercard aimed at encouraging owners of the **XME Prepaid Card** to use in different areas.

Solution

The solution designed for Ciak si Vince provides a **platform** that allows XME Card holders (appropriately subdivided into clusters) to register in a simplified way and to participate in **missions**, for the overcoming of which they can obtain prizes.

There is also a super final drawing for the most virtuous and active cardholders.

Cashless District – Intesa Sanpaolo

Aim

- Engage users through geolocalized advantages
- Retaining merchants (clients of the Bank) with innovative tools suitable for promoting their business

Solution

Only one loyalty and geofencing program, with two different apps:

- **My Smart Promo**, dedicated to merchants, to create promotional campaigns to be sent to customers
- **Cashless Pay**, dedicated to end customers, to allow them to capture (and then redeem) augmented reality vouchers in the vicinity of authorized stores that issued them.

**Domec e DAZN:
arriva il fischio
d'inizio su SisalPay.**

Powered by
domec

Aim

Open new distribution channels for their digital products through **pin distribution** on proximity channels that could allow customers to pay in cash.

Solution

DAZN chose Domec as its technological and commercial partner in order to manage and distribute the **pre-paid codes** of 1,3,6 and 12 months in Italy (through the 40,000 SisalPay points).

Pin Dispatching - Flixbus

Aim

Open new distribution channels for their digital products through **pin distribution** on proximity channels that could allow customers to pay in cash.

Solution

Flixbus chose Domec as its technological and commercial partner in order to manage and distribute **Flixbus Vouchers** and **Gift cards in Italy** (through SisalPay points and Mondadori Stores) and **in France** (through Logista network).

Domec is also in charge for the **digital distribution** of the vouchers via DomecGO.com and Sixthcontinent.it.

Cuore Rossonero card - AC Milan

Aim

Support the issuing of **Cuore Rossonero cards** as well as the extension of benefits dedicated to their holders, for example:

- Purchase the subscription
- Change the name of the season ticket holders
- Enjoy a special price list during the season
- Take advantage of pre-sales
- 10% discount on merchandising

Solution

Domec with its technical skills allows A.C. Milan to **automatize the KYC process** with a deeply interaction with the loyalty.

First Card - Casareale

Aim

Build an innovative path oriented to the customer loyalty.

Solution

First Card is a **loyalty program based on cash back**: for every single refueling a driver earns points that can be converted into liters of petrol.

Domec has developed the **Casareale First Card** app, dedicated to end users, the **First Card Merchant** app, dedicated to program management, and **Firstcard.it** the showcase site to allow customer registration, card balance display and list of transactions.

Instant Win - ACI

Aim

ACI, as part of the development of its customer loyalty program, turned to Domec to strengthen the **network of partner agencies** and to give greater boost to the purchases of members with the use of the ACI card with both local and national partners.

Solution

Domec has developed an **instant win program** (connected to the ACI Vinci Subito competition) integrated on all the individual terminals present in the ACI delegations of Italy, from which **two automatic extractions** were delivered: one dedicated to final consumers and one dedicated to the agency itself.

100% Mutualità – CAMA Sodel

Aim

CAMA, a mutual aid company, was looking for a technological and financial partner for the creation of a payment card, through which to offer a series of advantages to the cardholders.

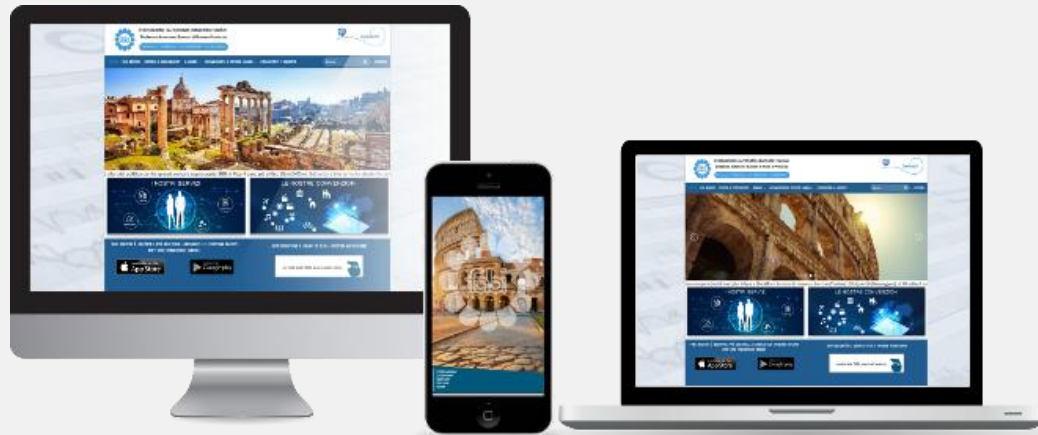

Solution

100% Mutualità is the account card dedicated to CAMA members, which allows them to benefit from specific financial services for them.

Domec supported CAMA in:

- **Development of the digital platform** dedicated to the owners
- **Materials creativity** (platforms and cards)
- Development of additional **card-related financial services**.

App Mobile and Web Portal - FABl

Aim

FABl Rome, regional delegation of the Italian Autonomous Banking Federation, was looking for a partner for the creation of technological platforms capable of communicating and delivering a series of **benefits for members**.

Solution

Domec for FABl Rome has developed website + mobile app that allow members to:

- **be updated** on the news on the reference banks
- **download** exclusive materials and benefits for them
- **extend** the benefits through member get member activities.

FICO Prepagata - Eatalyworld

Aim

Create and manage for Italy's largest food park:

- **The private rechargeable cards**
- **Gift cards**
- **Employee cards**

Solution

Fico Eataly World has digitized its cash points and decided to rely on Domec technology to improve the purchasing experience of its customers thanks to the creation of the **PREPAID FICO CARD**: a payment card with a prepaid balance that can be spent inside of the mall itself.

Again Cafè - Autogrill

Aim

- Support **up-selling and cross-selling** actions
- **Engage customers** and increase the value of the relationship
- **Enrich the proprietary database** with behavioral information useful for subsequent marketing activities.

Solution

Again Cafè is a prepaid subscription card which allowed the advance purchase of 10 coffees at a discounted price.

In less than 2 years Autogrill has generated over **900,000 transactions** and the anticipated sale of around **1,000,000 coffee**.

Again Ciao - Autogrill

Aim

- Increase the **value of relationships** with its customers
- **Enrich the database** with useful info for CRM activities.

Solution

Again Ciao is a free card that allows you to accumulate points for every purchase you make and to receive a bonus in € to be used on future drinks. With the help of Domec, Autogrill has:

- developed a **loyalty program** consistent with its commercial and strategic vision
- improved **customer loyalty**
- **acquired data and strategic information** about customer base.
